

Product Description

PAR20 Halogen Light Bulb

The Todaybulb's PAR20 halogen light bulb emits a narrow beam, delivering intense, focused lighting that's perfect for accentuating specific areas or features. With its 2800K warm white light, this bulb fosters a cozy and welcoming atmosphere, while a CRI of 100 guarantees that colors are displayed with remarkable accuracy and depth.

Advantage

- Narrow Beam Angle

Todaybulb's PAR20 flood light is perfect for accentuating specific features, artwork, or highlighting focal points in your space.

- Various Light colors

The glass color of PAR 20 lamp with different colors (like clear, red, blue, green, and yellow) can affect the light's color and the overall ambiance. From crisp, bright lighting to soft, cozy tones, each color offers unique benefits depending on your lighting needs.

- Flicker-Free & Eye Protection

Enjoy flicker-free and glare-free lighting that protects your eyes. The PAR20 flood light bulb instantly turns on at full brightness and provides consistent lighting without any unpleasant flickering, offering a comfortable, eye-friendly environment for work or relaxation.

- Dimmable for Flexible Lighting

PAR20 E27 lamp is dimmable and would adjust the brightness to create the ideal atmosphere.
